D.O.No. Z.28016/9/2019-NHM-I

Dated 06th May, 2019

Dear All,

As you are aware that under the flagship programmes of Ayushman Bharat over 17000 Health and Wellness Centres have been made operational throughout the country in the FY 2018-19. Recognizing the critical importance and transformative potential of the Health and Wellness Centres (HWCs) in building a robust foundation towards building an Healthy India, a scoring criteria has been developed to rank the Health and Wellness Centres based on 11 indicators, which was presented and discussed during the National Consultation held on the 8th of April 2019 at New Delhi. This ranking will be done quarterly based on the data uploaded by the States /UTs on the HWC portal.

2. Further, the current ranking is based on the two scoring indicators listed below:

- % of SHCs, PHCs and UPHCs operationalized as HWCs out of total SHCs, PHCs and UPHCs in the state
- % of HWC functionality criteria met against the total target functionality criteria.

4. The draft scoring criteria and ranking of the State / UTs is enclosed for your kind perusal. It is requested to kindly provide your inputs / comments, if any, to Dr. Garima Gupta (Senior Consultant, NHSRC) at dr Gupta garima@gmail.com and Dr. Rakshita (Consultant, MoHFW) at rakshita.mohfw@gmail.com by the 10th of May 2019 positively.

Encl: as above

with kind regards,

Yours Sincerely,

06/05/2019

(Dr. Manohar Agnani)

The Additional Chief Secretaries (Health)/Principal Secretaries (Health)/Secretaries (Health) - All States and UTs.

- The Mission Director, NHM of all States and UTs.
- The Executive Director, NHSRC.

Health and Wellness Centre – Ranking Criteria (as presented on 08.04.2019)

Functionality Criteria HWCs

1. Availability of HR (i.e, Trained CHO at SHC- HWC and MBBS MO at PHC – HWC/ UPHC- HWC)
2. Completion of training of Primary healthcare team on NCDs
3. Availability of essential medicines
4. Availability of essential diagnostics
5. Infrastructure strengthening including Branding
6. Initiation of screening of NCDs (Hypertension, Diabetes and three cancers – Oral and Breast)
7. Initiation of Community Outreach (population enumeration and Community Based Assessment checklist filling) by ASHAs
8. Use of CPHC IT application
9. Wellness activity including yoga
10. Tele-consultation
11. Performance linked payment for CHO

Process for Ranking of HWCs

- Based on-
 - Data entered on HWC Portal which reflects readiness and initial service delivery at HWCs.
 - Combined score determined from weightage linked with seven criteria
- Done on quarterly basis
- Overtime the scoring criteria will be refined to reflect service delivery, quality and outcomes.

Indicators:

	Criteria	Definition	Weightage
1	% of SHCs, PHCs and UPHCs operationalized as HWCs out of total SHCs, PHCs and UPHCs in the state <i>Source – HWC Portal</i>	Numerator – Number of SHCs/ PHCs and UPHCs indicated as progressive on HWC portal Denominator - Number of SHCs and PHCs and UPHCs available in state	25%

	Criteria	Definition	Weightage
2	<p>% of HWC functionality criteria met against the total target functionality criteria³ –</p> <ul style="list-style-type: none"> i. Availability of HR, ii. Training completed, iii. Branding Completed, iv. Availability of Medicines, v. Availability of Diagnostics, vi. Population Enumeration initiated, vii. Screening initiated for all four NCDs (Hypertension, Diabetes, Oral and Breast Cancer) viii. CPHC IT application is in use ix. Tele-consultation x. Wellness activity including yoga xi. Performance linked payment for CHO <p><i>Source – HWC Portal</i></p>	<p>Numerator – Total number of criteria met by the HWCs</p> <p>Denominator – Total number of criteria estimated based on number of HWCs proposed on HWC portal</p> <p>Each HWC can potentially achieve a score of 11 (i.e, 1 per criterion) on meeting all 11 criteria.</p>	20%
3	<p>% of population enumerated (against the target population) under HWCs</p> <p><i>Source – CPHC – NCD IT application</i></p>	<p>Numerator – Number of individuals reported under population enumeration for all HWCs</p> <p>Denominator – Total population under the health facility</p>	15%
4	<p>% of Pregnant Women who received full ANC</p> <p><i>Source – RCH portal / ANMOL</i></p>	<p>Numerator – Number of pregnant women who received full ANC checkups (at least 4 ANC checkups)</p> <p>Denominator- Total number of pregnant women registered under the facility</p>	5%
5	<p>% of institutional deliveries</p> <p><i>Source – RCH portal / ANMOL</i></p>	<p>Numerator- Number of pregnant women who delivered in a health care facility (public and private both)</p> <p>Denominator- Total number of pregnant women reported under the health facility</p>	5%

	Criteria	Definition	Weightage
6	% of Newborns who received HBNC visits Source – RCH portal / ANMOL	Numerator- Number of newborn (0-28 days) who received HBNC visits as per the schedule (0, 3, 7, 14, 21 and 28 days). Denominator- Total number of newborn reported under the health facility	5%
7	% of Children up to 2 years of age who received full immunization Source – RCH portal / ANMOL	Numerator- Number of children up to 2 years who received full immunization (BCG, measles, and 3 doses each of polio and DPT) Denominator- Total number of children up to 2 years reported under the health facility	5%
8	% of Individuals over 30 screened for Hypertension against the target under HWCs Source – CPHC – NCD IT application	Numerator – Total number of individuals screened for Hypertension Denominator – Total number of individuals over 30 (estimated using 37% of the total population reported under each health facility)	5%
9	% of Individuals over 30 screened for Diabetes against the target under HWCs Source – CPHC – NCD IT application	Numerator – Total number of individuals screened for Diabetes Denominator – Total number of individuals over 30 (estimated using 37% of the total population reported under each health facility)	5%
10	% of Individuals over 30 screened for oral cancer against the target under HWCs Source – CPHC – NCD IT application	Numerator – Total number of individuals screened for Oral Cancer Denominator – Total number of individuals over 30 (estimated using 37% of the total population reported under each health facility)	5%
11	% of women over 30 screened for breast cancer against the target under HWCs Source – CPHC – NCD IT application	Numerator – Total number of women screened for Breast Cancer Denominator – Total number of women over 30 (estimated using 49% of the total population over 30)	5%

State /UT Ranking – Health and Wellness Centres – 8.04.2019

Rank	State Name
1	Andhra Pradesh
2	Telangana, Punjab
3	Arunachal Pradesh, Haryana
4	Sikkim, Tamil Nadu, Gujarat, Chhattisgarh
5	Jharkhand, Assam, Maharashtra, Odisha
6	Meghalaya, Uttar Pradesh, Rajasthan, Karnataka
7	Kerala, Manipur, Tripura, Goa, Mizoram, Jammu and Kashmir
8	Bihar
9	Himachal Pradesh, Uttarakhand, West Bengal
10	Madhya Pradesh
11	Nagaland

Ranking based on first two criteria

- **Percentage of SHCs, PHCs and UPHCs operationalized as HWCs out of total SHCs, PHCs and UPHCs in the state**
- **Percentage of HWC functionality criteria met against the total target functionality criteria**

Rank	UT Name
1	Daman & Diu
2	Chandigarh
3	Dadra & Nagar Haveli
4	Puducherry
5	Andaman & Nicobar Islands

Ranking based on first two criteria

- Percentage of SHCs, PHCs and UPHCs operationalized as HWCs out of total SHCs, PHCs and UPHCs in the state
- Percentage of HWC functionality criteria met against the total target functionality criteria
